

Spadrole is a business dedicated to getting breakthrough results for high-performing individuals, companies and associations. We believe that leaders who dare to dream and implement real changes create a contagious environment, one that leads to healthy, satisfied, high-achieving teams—an inspired workforce! Creative thinking skyrockets. Cooperation soars. Job satisfaction goes through the roof!

As an author, innovator and proud member of the Canadian Association of Professional Speakers, Rolande Kirouac has trained dozens of leaders about the health benefits of dreaming big and creating a dynamic game plan to make things happen.

Rolande works with groups and individuals who want to make real change happen **now!**

“Rolande helps people to let go of their inhibitions. It is a powerful feeling to be free of worrying about what others might think and it takes practice. To be able to practice the skill in a safe setting with a great role model is very positive and self-empowering.”

—Rhonda Lorch, Lorch and Associates

Rolande also provides dynamite keynotes, unforgettable interactive workshops and life-changing retreats.
